Read the story of the miracle that happened with the 10 lepers. Luke 17:11-19

Jesus didn't heal everybody that need a healing. But he did respond to those who called out to him as we see in this story. Does the reaction of the nine give us a hint why Jesus simply did not heal everyone who needed it? What principle do you see here?

What was the determining factor in receiving their healing? Only one returned to Jesus, did the other nine retain their healing or lose their healing judging by their reaction and what Jesus said?
